SendGrid Account Creation

Team ID	PNT2022TMID20306
Project Name	News Tracker Application

The screenshot displays the Twilio SendGrid dashboard interface. On the left is a sidebar with navigation links: Account Details, Setup Guide, Help & Support, Sign Out of Account, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area is titled 'Send your first emails with Twilio SendGrid' and features an illustration of two people running. Below this, the 'Create a sender identity' section explains that a sender identity must be created before sending emails, recommending a 'Single Sender'. It includes a button 'Create a Single Sender' and a link 'Authenticate a domain instead'. A diagram shows an email header with 'Your Business' as the sender and '<jane.doe@your_business.com>' as the email address. At the bottom, a 'Send your first email' section contains a message: 'Please create a sender identity before sending your first email.' and a lock icon. The reputation bar at the bottom left shows 'REPUTATION 100%' and a 'VIEW ACCOUNT USAGE' link.

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

Your Business <jane.doe@your_business.com>
to me

Send your first email

Please create a sender identity before sending your first email.
